

BetweenGlassBlinds™ integral shading solutions by VISTAMATIC are versatile and stylish products that replace standard integral blinds with a modern and maintenance-free privacy window for observation control.

A REPUTATION FOR EXCELLENCE

BetweenGlassBlinds is part of the global glass solutions pioneers – VISTAMATIC®. Our foundation is built on unrivalled customer service, quality and value.

To ensure quality and durability, all our blinds are filled with dessicant to prevent fogging and condensation. That's why we are proud to offer a full:

Style & security with form & function

BetweenGlassBlinds™ is a Venetian blind sealed between two sheets of glass as a single, insulated panel operable by magnet or remote control. The products utilize the same hand-crafted, high-quality manufacturing process of the VISTAMATIC® Vision Panel and come with a **10 year warranty**.

BetweenGlassBlinds integral shading solutions perfect for environments where privacy and infection control are of the highest priority:

- » Healthcare
- » Residential
- » Commercial
- » High security
- » Education

BETWEENGLASSBLINDS ARE:

- » Cost effective
- » Maintenance free
 - » No special cleaning methods
 - » Hermetically sealed
 - » No exposed cords, mechanisms or components
- » Operable by magnet
- » Easy to install
- » Easily customizable with a range of colors and glazing options
- » Suitable for interior & exterior applications
- » Fabricated in the USA

MANUALLY OPERATED INTEGRAL BLINDS

Operated using a magnet, no crankshaft, control knobs or thumb wheels. Simple, efficient and cost-effective. The magnet can be secured on the track if required or easily removed during the installation process to fit your individual needs.

TILT ONLY BLINDS

Operable by magnet, the BetweenGlassBlinds Tilt Only panel offers a standard integral blind system that tilts the slats from open to close with the slide of a magnet. Blinds are available in a variety of color options.

FEATURES

- » Ideal for doors and walls
- » Variety of sizes available
- » Magnet can be placed on any side
- » Single/dual side operation

TILT & LIFT/RAISE BLINDS

Operable by magnet, the BetweenGlassBlinds™ Tilt & Lift panels offer a standard integral blind system with the ability to tilt the slats from open to close as well as lift or raise the internal blinds for maximum exposure; functional with two independent magnets.

FEATURES

- » Independent magnet controls for Tilt & Lift functions
- » Maximum viewing capabilities
- » Variety of sizes available
- » Single/dual side operation

MOTORIZED INTEGRAL BLINDS

Motorized BetweenGlassBlinds Units are the first patented system with wireless actuator with magnetic transmission. It doesn't require hard-wiring and is applicable to any thickness of glass. The system can be produced with various types of materials such as Venetian and Fabric blinds.

FEATURES

- » Battery controlled – no hard-wiring required
- » Maximum viewing capabilities
- » Variety of sizes available

Built to suit & built to last...
